News in Brief Form

Local Items and Happenings of General Interest
—Mostly Personals

J. W. Yake spent Tuesday in Drumheller.

J. A. Key of Rowley, is in town for the bonspiel.

L. S. Dawson is a Youngstown visitor this week.

Cooley Bros. are in Calgary on business this week.

A movement is on foot to retain the services of a night operator at the station.

School Fair concert date has been changed to suit the carnival program on the local rink.

Miss Mary Fargie of Chilmark district, was taken to Calgary on Tuesday morning for treatment.

Mrs. H. Male, of Chilmark, left on Tuesday morning for Calgary, where she will spend a few weeks.

Miss Olive Young, teacher at Wildflower school, spent the week end with her sister, Mrs. Robt. Smith.

A slight error occurred in the mortgage sale advt. last week. It should have read township 29 instead of 28.

The Tuxis boys from Youngstown played a friendly game of hockey with the boys here, and were defeated by a score of 5-2.

Odine, the little daughter of Mr. and Mrs. Brownell, had the misfortune to break a leg while playing at the rink last week.

The skating rink committee and hockey boys are splitting the former gets 25 per cent. of the receipts taken at hockey matches.

The bonspiel is happy on its way with seven visiting rinks in attendance and close games resulting.

Good attendances are greeting Rev. Powell at his special services being held in the church, and the lectures are proving very interesting. He will speak in the school on Friday evening at the U.F.A. concert on "An Ideal Community", and will also take the services in the church on Sunday evening.

Chas. Wyllie, druggist, is issuing calendars published by Rexall Drug Stores that are among the best yet. On the face of the calendar are given, along with the figures, the phases of the moon and the weather forecasts, while on the back of each month are blanks for farm and household expenses, farm receipts, and some very useful information. The back card of the calendar is printed on both sides and contains a wealth of information—a blank form for making an inventory of your belongings, health and household hints, measures and weights, farm tables, first aid hints and many others. It also included the regular information generally looked for on the first pages of the family almanac.

Village Council Passes Budget

The regular meeting of the council took place on Thursday of last week. After the passing of bills and accounts, and authorizing the reeve and secretary to sign all cheques, the following budget for 1922 was passed: Sidewalks \$600, streets \$500, salaries \$250, lights \$300, debentures \$150, health department \$200, water \$300, incidentals \$200.

Agri. Society Elects Officers

At a meeting of the directors of the Agricultural Society on Saturday, W. A. Cruickshank was elected secretary-treasurer and J. Rennie assistant secretary. E. E. Noble was elected delegate to the fair convention in Edmonton on the 14th and 15th of March, R. Stewart being elected the alternate. J. Rennie, W. A. Todd and E. E. Noble were appointed a committee to secure ads. for the 1922 prize list.

Mrs. Key, N. McLean and F. Foster were named a committee to revise prize list.

History of Our School Fair

School fairs are under the management of the staffs of the agricultural schools of the province, assisted by the Department of Education through the inspectors and teachers. These fairs are yearly becoming more numerous and popular.

Three such fairs have been held in Chinook to date. Needless to say, the problem of financing them is no easy task, especially for the year 1921, when school boards have little or no money to devote to that purpose.

The finances for the fair of 1915 were secured by a charge of from \$5 to \$10 per school district entering the fair; by a grant from the Department of Agriculture sufficient to pay the live stock prizes, by contributions from inspector and teachers of some \$30 and the balance some \$48 contributed by the citizens of Chinook, amounting in all to \$168, leaving a deficit of \$7.00.

The finances for the year 1920 were raised and expended as follows:

Receipts from different school districts, \$116.80; Chinook W. I. \$12; E. T. Mitchell, \$8.00; L. Proudfoot, \$5.00; J. W. Yake, \$5.00; C. W. Rideout, \$1.00; R. S. Woodruff \$3.00, contributions by W. A. through N. A. Cruickshank \$48.20.—Total \$198.20.

Expenditure—School districts taking part for prizes \$151.55, live stock prizes \$15, athletic prizes \$17.50, canteen, etc. \$2.00, janitor \$3.00, postage 60c, deficit from preceding year \$7.00.—Total \$196.65.

A considerable balance of 1921 finances is yet to be raised, in

the meantime the prizes have been all paid by means of an advance from the local bank. The school fair concert is expected to wipe the slate clean for another and even better year. The hearty co-operation of all interested in the welfare of our kiddies is hereby solicited.

School Clinic

A meeting will be held in Cereal on Saturday, Feb. 18, at 2 p.m. for the purpose of perfecting an organization establishing a School Clinic under the offer of Dr. Chandler, of Cereal. All school districts and U.F.A. locals are especially requested to send a delegate to this conference.

Orders taken for luncheon and breakfast sets of the popular unbleached muslin hand trimmed with applique; also rompers, children's dresses, aprons, house dresses, bags, cushion tops, etc. For particulars and samples see Mrs. Rideout.

On Monday, Feb. 20, there is to be a public entertainment and examination given by the Sunday School in the church auditorium. You are invited.

During a dispute over sending his children to school Mr. Shott and truant officer Reinhold, as we understand, exchanged blows. Mr. Reinhold received injuries about the head.

The hockey boys went to Oyen last week and when asked by our reporter for particulars replied that "they did not do, so could not say." We understand the score was 3-1 the other way.

At a meeting of the rink committee on Feb. 7, it was decided to hold a carnival on Friday, the 17th. Final arrangements as to prizes will be made later, but in the meantime get your costumes and be sure to turn out and make it a success. A charge of 25c for the privilege of skating may be levied in order to raise the necessary prize money.

Canada's Needs

No. 6—Scientific Research

In the course of the several articles which have appeared in this column under the above general heading, some of Canada's needs have been enumerated but only in the most general way, with any attempt made to suggest ways and means of meeting and providing for those needs. Recently, however, a little pamphlet has been issued by the Honorary Advisory Council for Scientific and Industrial Research which merits the serious consideration of the Canadian people and is worthy of the widest possible circulation. It presents at least one very practical suggestion how some of the needs referred to, more particularly in the fourth article of this series, can be met. It is, therefore, proposed to quote at some length from the pamphlet in question which is entitled "Research and the Problems of Unemployment, Business Depression and National Finance in Canada."

"I am not a protectionist but I say this," declared a statesman now dead. "The variety of work carried on among the citizens of Canada should be as comprehensive as possible."

"Not because we are thus enabled to boast of the number of our trades—that would be mere vanity."

"Not merely because our country should be able to fill as many as possible of its own needs without having to ask foreign aid."

"Not merely because we should learn as soon as possible to finish the raw material with which Nature endowed us—rather than confess our helplessness by asking foreigners to finish them for us and giving them the wages and the profit on our raw materials."

"Not merely because our country should as soon as possible escape from dependence for its prosperity on any one kind of production but should diversify the risk among many."

"But because Canada should retain her most ambitious sons and daughters within her own boundaries by encouraging for their sakes that variety of occupation from engineering to farming—from chemistry to literature—which, if they want the highest awards and honors, they are still compelled nowadays to seek abroad."

One of the serious drains on the strength of the Dominion of Canada is the annual loss of engineers, chemists, scientists, farmers and technical experts—those training paid for by Canadians in Canadian schools and universities supported by Canadian public money, thus goes out to make foreign countries rich and place Canada further in their debt for foreign goods and services.

Monopolies of knowledge—that is, monopolies of special branches of technical knowledge—constitute one of the most powerful weapons of trade today.

Secret agreements, combines, trusts and the ordinary method of "conspiracies in the restraint of trade," become very mild and impotent weapons when compared to such formidable instruments as, for example, a secret chemical formula that might be scribbled on the back of a calling card.

In the bloodless wars for international trade it is the armies of chemists and engineers that must be mobilized, drilled and directed against the parapets of unknown scientific facts. Export duties, credit leagues, intelligence departments, persuasive salesmanship and even the magic of a great fist, cannot win or cannot hold, for long, trade for a country whose producers are not armed with scientific knowledge of their work.

A great career manufacturing concern in the United States is able to dominate its field in at least half the world because it knows more scientific secrets of that trade than anyone else. Because, if a new concern started in opposition, it need only reach into its pigeon holes for some new formula—not otherwise convenient to exploit at present—but which will raise its product one step beyond the competition of the would-be rival.

So in steel-making! So in the manufacture of electrical apparatus! So in textiles! So in chemistry! So in agriculture! So in every important branch of human industry!

So in Canada—as compared to other nations—everyone of our industries is threatened, and must ultimately fall under the thrall of foreign domination unless it keeps pace with the advances in technical knowledge.

So, unless we master all that is to be known regarding the nature and possibilities of our vast supplies of varied raw materials, Canadians must ultimately find themselves at the mercy of foreigners who know how to prepare our riches for purposes of commerce.

Fifty cents in the United States retail research departments at costs ranging from \$25,000 to \$2,000,000 a year. In England, France and Germany, the race for technical knowledge for purposes of trade gathers speed. The more digger-out of raw materials gets the pay of a laborer. The nation that can finish its raw materials treasures and quadruples its rewards.

The question is—Should Canada keep reasonably in pace with the modern movement? Shall Canada add to her natural possessions a superior knowledge of how to use them?

Can the needed variety of occupations for ambitious Canadian sons and daughters be maintained unless she does make places for such knowledge and encourage those who extend it?

Can the burdens of Canadian taxation and the evils of unemployment be offset if Canada, in her struggle for markets and for good returns on her wares, does not possess herself of the instrument of technical knowledge?

(To be continued)

Relic Of Babylonian Times

Interesting Discovery Recently Made In Asia Minor

The ruins of a Babylonian colony dating back 2,400 years before the Christian era, have been discovered at Kishan Nyck, in Asia Minor. The remains discovered prove that the community which lived there was partly military and partly commercial.

Cuneiform inscriptions give many curious details of the organization of the city, which was governed by a prince and prefect, assisted by a prince and a female prefect, whose powers are said to have been precisely equal to those of their male colleagues.

Five hundred thousand dollars worth of furs arrived in Edmonton from the north recently.

The Japanese rickshaw is said to have been invented by a missionary. Minard's Liniment for Warts, Corns, Etc.

Icebreakers Sent to Russia

British Cruisers Will Endeavor to Keep Port Open

Two huge ice-breaking cruisers, the Alexander Nevsky and the Svyatogl, have just been sent to Petrograd by British naval authorities to keep that Russian port open this winter, if possible.

They were built for Russia in the world war and were used by the allies at Archangel and in the White Sea during the occupancy of the Archangel district by American and other allied troops.

It is said that their names will be changed to Lenin and Trotsky. They are among the largest icebreakers in the world and are so constructed as to break the ice around them by rolling as well as by pushing through the ice ahead of them.

THE ORIGIN OF GALL STONES

They are simply dried bile made up of crystalline constituents of that fluid. Very common is this disease among merchants, clergyman, shop girls, and those of sedentary habits. Prevention consists in maintaining correct action of the liver and bowels, and this is speedily accomplished by using Dr. Hamilton's Pills. No person using Dr. Hamilton's Pills will be subject to biliousness. Sound digestion, good appetite, a clear color will evidence the health giving properties of Dr. Hamilton's Pills which are salt and best for general family use. When a laxative is needed, when you feel out of sorts, that's the time to use Dr. Hamilton's Pills of Mandrake and Bitternut. Use all dealers or The Carruthers Co., Montreal.

The Common Work

The best things are nearest; breath in your nostrils, light in your eyes, flowers at your feet, duties at your hand, the path of God just before you; then do not grasp at the stars, but do His plain, common work as it comes; certain that daily duties and daily bread are the sweetest things of life—Anon.

WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little ones out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little ones healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colic. The tablets are sold by all drug dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

In preparing kid for gloves, one London firm uses several thousand eggs a week.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

The city of Muskegon, Mich., has loaned \$10,000, without security, to those of its citizens who are out of work and in need.

RUN-DOWN, NERVOUS? Weak Women Can Get the Help They Need

St. Thomas, Ont.—"Dr. Pierce's Favorite Prescription is a grand medicine for a woman who is at all nervous, weak or run-down, or who suffers with womanly ailments. I have not only taken it myself and been greatly benefited but I have known of many others who have been benefited, and in no case have I ever heard one word of condemnation against Dr. Pierce's Favorite Prescription, but always praise."—Mrs. Sarah Burke, 102 Scott St.

The use of Dr. Pierce's Favorite Prescription makes women happy by making them healthy. A great many women in every part of Canada owe their good health of today to this famous Prescription.

HAVE YOU STOMACH TROUBLE?
This Woman Had Suffered Great Distress and Gave Her Experience
Dundalk, Ont.—"I am only too glad to tell what Dr. Pierce's Golden Medical Discovery has done for me. I doctored three months and got no relief but, thanks to Dr. Pierce's medicine, I found a cure at last. I will recommend it to any poor sufferer with ulcerated stomach and bowels. When I started taking 'Discovery' I weighed 83 pounds; now I weigh 119. No other medicine for me."—Mrs. Malcolm McLean.
You can quickly put yourself in A-1 condition by going to your druggist and obtaining Dr. Pierce's Golden Medical Discovery in tablets or liquid; or send 10c to Dr. Pierce's Laboratory in Bridgeport, Ont., for trial package and write for free medical advice.

W. N. U. 1406

Make it your handy household assistant. Use it for making soap, in washing dishes, for cleaning sinks, refrigerators, garbage cans, etc., for cleaning clogged drain pipes, for removing grease and smoke stains, for scrubbing floors and tiling. You will find that the systematic use of Gillett's Lye will keep everything around the kitchen and bath room clean, sweet and wholesome. Cleans and disinfects. Is economical and sure in its effects. Has been the standard for over 50 years. It saves labor, time and trouble.

Made in Canada

A Whale Story

Passengers See Liner Cut Big Whale In Two

The story of a 75-foot whale, which was neatly cleaved in twain by the prow of the Italian liner Presidente Wilson, was related by passengers when the vessel docked in New York.

The Presidente Wilson was sailing in mid-Atlantic when the whale was sighted lying directly across the course of the vessel. A hundred and fifty passengers lined the rails to see what would happen.

Passenger along the port rail heard a crash as the bow struck the huge mammal, saw the water turn pink and saw the head of the whale float astern. Those on the starboard rail experienced the same sensation—only they saw the tail float astern.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought back hope and life to many such. Testimonials, sent entirely without solicitation, show the benefit it has wrought among women everywhere.

Wireless Conference

Appointment of Canadians Is Now Deferred

The appointment of Canadian representatives to a technical conference on inter-imperial wireless stations probably will not be made immediately. It is understood, owing to the number of other pressing matters the government has on hand. The report of the wireless telegraph commission recommended Canadian representatives be named for such a conference.

Canada is expected to go ahead with its share of the proposals eventually.

One of the reasons for delaying action on the recommendation is understood to lie in the proposed amalgamation of the naval department with militia and other departments of defence under one minister.

Plans for the amalgamation of the defence departments are expected to be completed in time to introduce a measure in the next parliament.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Eclectic Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Golf At Pacific Coast

Game's Played Every Day in the Year At Victoria

There are no better known golf courses in the Dominion than those at Victoria on Vancouver Island, no doubt due to the fact that the game is played every day in the year.

One of the delights of the winter visit to the Coast is to enjoy again the favored summer sport. It will, therefore, come as a pleasant announcement to know that the Canadian Pacific Railway has completed arrangements whereby guests of the Empress Hotel at Victoria will be accorded playing privileges on the excellent 18-hole Colwood Course.

Germany's 1921 Crop

The official German crop figures gives the following production reports for 1921: Rye and wheat, 9,939,647 tons; barley, 1,339,995 tons; oats, 5, 940,382 tons; potatoes, 26,151,380 tons. Of this production the government's share is 2,560,000 tons, but only 70 per cent. has been delivered, the report says.

To Cross Niagara Falls On A Wire
James E. Hardy, a native and resident of Toronto, who crossed the Niagara River near the falls on a wire twice in July, 1896, is going to try the feat again this summer, he announced. Mr. Hardy is 48 years of age.

During the courtship a young man is never out of danger until the girl says "No" three times.

Minard's Liniment for Distemper

Shortage of Oil

Says the U.S. Has Oil For Only Twenty Years

A canvass of the oil reserves of the United States Geological Survey that the available supply is only 3,150,000,000 barrels. This is enough to satisfy the present requirements of the country for only twenty years, provided the oil can be taken out of the ground as fast as it is wanted.

The experts of the survey estimate, however, that the oil cannot all be discovered, much less taken out, inside of twenty years, and assert that the time is rapidly approaching when

WORLD HAPPENINGS BRIEFLY TOLD

Sir William F. Coates was re-elected Lord Mayor of Belfast.

Following a mysterious visit of two white men in a gas boat, a young Indian was found dead in the snow in the Kitimaat Indian village.

Women from the Bengal and Punjab regions were among the speakers at a non-co-operatives meeting, which was dispersed by the police. One hundred and eight men were arrested.

Mrs. Helen Knickerbocker, 84, widow of Henry Knickerbocker, millionaire paper manufacturer, of New York, committed suicide by jumping from the eleventh floor window of her apartment.

Reports which have been in circulation abroad of the engagement of Princess Yolande of Italy and King Boris of Bulgaria were denied in Rome, says a Havana dispatch from the Italian capital.

For the theft of \$175 from the poor box at the Dominion Methodist Church Notre Dame de Grace, Montreal, Charles Girard, alias Giroux, was sentenced to a year in prison by Judge Decarie in the court of special sessions.

Captain John Pritchard, former commander of the Cunard Line fleet, died in London recently. He was the commander of the Mauretania on that vessel's maiden voyage from Liverpool to New York in 1907. He started his life at sea as a cabin boy.

Members of the Saskatchewan Cattle Breeders' Association at their annual meeting, unanimously passed a resolution calling upon the Dominion Government to negotiate with the Government of the United States, to secure the removal of the Fordney tariff.

Poultry in Alberta

In the past ten years the number of poultry in Alberta has increased from two and a half million to four and a quarter million, nearly one hundred per cent, according to the provincial minister of agriculture for Alberta. Previously the local market consumed practically the entire production, but at the present time a steady export trade of eggs to Great Britain is being built up.

She Would Not Be Without Them

Mrs. Funk Tells Other Women About Dodd's Kidney Pills

She Suffered Terribly and Was So Bad She Could Not Do Her House Work—What Dodd's Kidney Pills Did For Her.

"I suffered for years from kidney trouble, female weakness and nervousness," Mrs. Funk says. "I was so bad I could not do my housework. I suffered terribly but after using Dodd's Kidney Pills I feel much better."

"I can do my housework again and I will keep on using Dodd's Kidney Pills until I am entirely well. I am well satisfied with what Dodd's Kidney Pills have done for me. Everybody who suffers should try them. I would not be without Dodd's Kidney Pills."

Ask your neighbors if Dodd's Kidney Pills are not the greatest of all kidney remedies.

Five million miles of copper wire are used in New York's telephone system. This length is sufficient to circle the world, pass through space to the moon, circle that body and return to earth twenty-one times.

Who Are Canadian Authors?

Drawing the Line is Sometimes a Difficult Matter

Canadians, it is said, have no right to claim Robert V. Service as a Canadian poet, because he was born in England and nurtured in Scotland. Then, if we claim him as a Canadian because his work was done in Canada, we are asked what right we have to claim Gilbert Parker, Bliss Carman and others who were born in Canada and did most of their work in other countries. In the face of this dilemma we can only take refuge in the saying that it is difficult to draw the line.

We have to consider the place of birth, the place of education, where the author lived when he was doing his work and the nature of the field which he chose for his themes; and it may be that in some cases the honor must be divided. This is the case, that of statement. Sir John Macdonald and George Brown were both born in Scotland; we claim both as Canadians, but somehow Brown seems to be the more distinctively Scottish of the two. One consolation is that, there being no law or tribunal to decide, we can claim anybody we please, and we shall not be offended if there are rival claimants who pay us the compliment of sharing in our admiration. We are paying homage to the same Sovereign, not courting the same lady.—The Toronto Globe.

THOUSANDS CONVERTED

Through ignorance, many have suffered aches and pains long thought incurable. But doubt quickly turns to belief when—Sciatica, Lumbago and Neuralgia are healed with Nerviline. Its soothing healing powers are really wonderful. Nerviline sinks in quickly. It penetrates into the sore muscles and brings grateful relief. The hundred and one minor ills that come to every family yield quickly to Nerviline. Try it. 35c at all dealers.

Germany Building Ships

100 Vessels Are Built in Germany During 1921

One hundred vessel of approximately 460,000 gross tons, were built in Germany during 1921, according to information compiled by the American Bureau of Shipping. Of this number 15 of 56,000 tons were constructed for the Hamburg-American Line, which is developing joint services under an agreement with the American Ship and Commerce Corporation. Six ships were completed for Hugo Stinnes and two for the North German Lloyd.

Few motorships were built. Only six of the vessels come under this classification, despite the previous belief that Germany was heavily committed to the motor drive. Figures obtained by the American Bureau show 377,315 tons for eighty-two ships, an average of 4,610 tons each. If this average holds good on the other eighteen, the total would be about 460,000 tons.

Ships under construction at the end of the year are not included in the table.

"Fur" in kettles and boilers is due to the action of boiling; the water making certain carbonates in the water adhere to the vessel used.

People are always trying to dodge the man who thinks he can tell a funny story.

RHEUMATIC ACHES QUICKLY RELIEVED

THE rack, agonizing rheumatic aches quickly relieved by an application of Sloan's Liniment. For forty years, folks all over the world have found Sloan's to be the natural enemy of pains and aches. It penetrates without rubbing. You just tell by its healthy, stimulating odor that it is going to you good.

Keep Sloan's handy for neuralgia, sciatica, lame back, stiff joints, sore muscles, strains and sprains. At all drug stores—35c, 70c, \$1.40.

Sloan's Liniment (Pain's enemy)

India Nation of Farmers

The large majority of the population of India are engaged in agricultural pursuits, nearly 200,000,000 being engaged in tilling the soil or dependent for their living upon those so engaged.

If Tormented With Corns. Use Good Old "Putnam's."

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's." 25c everywhere.

What Pluck Did

A boy in New Jersey, eighteen years old has signed a contract to purchase a farm for \$18,500. Orphaned at ten, he undertook to make a living for his aunt and three sisters from his own earnings. His father had rented. Not only did he do it but he saved money—enough now to pay the first installment or the purchase price of the property. He will come into full legal ownership when he is twenty-one years old. Opportunity still loves pluck.—Youth's Companion.

WOMEN AND GIRLS

WANT ROSY CHEEKS

They Can Be Had By Keeping the Face Rich and Pure

Every woman—every girl—wants rosy cheeks. They mean not only beauty but good health. When a woman's blood is healthy or unclean her color fades, she looks debilitated, is short of breath and her heart palpitates. It is a sure sign of disease. Sometimes this trouble is accompanied by severe headaches, or pains in the back and limbs. This condition is entirely due to weak, watery blood and can only be cured by making the blood rich, red and pure. For this purpose try Dr. Williams' Pink Pills, which act directly upon the blood, and in this way bring new health and strength to weak, ailing people. For instance, W. Howell, Petticoat, N.B., tells of what Dr. Williams' Pink Pills did for her as follows:—"For some time I had not been feeling well. I had been gradually growing weaker, and found it constantly growing harder to do my housework. I was very pale and had frequent headaches. I consulted a doctor and took his medicine for some time, but it did me no good. I found myself growing weaker, and taking faint and dizzy spells. A friend advised me to try Dr. Williams' Pink Pills, and although I had nearly lost faith in all medicine, I got a supply and began their use. After a time I found they were helping me, and I gladly continued taking them, and ultimately found that the trouble that had afflicted me was vanquished. I am now strong and healthy. I am glad to state this statement in the hope that my experience will be of benefit to others."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50. From The Dr. Williams' Medicine Co., Brockville, Ont.

Canada Should Keep

Her Cheese Industry

Large Amounts Could be Absorbed by Foreign Markets

Whilst Canada is materially no loser in the thinking away from one industry to build up another, it would be regretful if the cheese industry, in which the Dominion has achieved such renown and created such a universal demand for her product, should be permitted to decline, as it is gradually doing. It is a pity to witness indications of a return to pristine importance before serious loss has been effected. That the dairy industry is on a wonderful scale of ascending progress there is every evidence, and there still remain the widest possibilities for profit in the industry. Practically the entire output is at the present time exported, and there is no doubt that with the name it has universally won for itself foreign markets could absorb much more. The recent awards in London must assuredly be the occasion of fresh interest in this old Canadian industry.

Moorish society knows no class distinctions, except that a man is rich or poor, official or non-official, saintly or ordinary.

Minard's Liniment for Colds, Etc.

Gray Crepe de Chine Tea Dance Frock

By Marie Belmont

Pointed panels find increasing favor, as they are invaluable in achieving the irregular hemline. Sometimes flying panels show points only at the bottom, as pictured here. In other frocks, the panel top is also pointed, with its tip attached at the waistline.

Gray crepe de chine is the medium for this attractive tea dance frock. It slips on over the head and is banded at the sleeves and panels in gray squirrel. A smart little squirrel choker is worn about the plain collar.

The gray satin hat shows corded rolls edging its turn-up brim, while silver pins are thrust through at either side.

Time has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Italian Novelist Dies Giovanni Verga, noted Italian novelist and poet, died at Rome recently at the age of 82 years. One of his best known works was Cavalleria Rusticana, from which Mascagni's opera was adapted.

Minard's Liniment for Garget in Cows

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

Dye Skirt, Dress Or Faded Draperies in Diamond Dyes

Each package of "Diamond Dyes" contains directions to simple that any woman can dye or tint faded, shabby skirts, dresses, sweaters, stockings, hangings, draperies, everything like new. "Diamond Dyes"—no other kind—turn perfect home dyeing is guaranteed. If you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk or whether it is linen, cotton, or mixed goods. Diamond Dyes never scorch, spot, fade, or run.

Egyptian women perform a strange ceremonial dance at funerals which archaeologists have traced back to the ancient ritual for the dead.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

The industry of producing motion pictures in the United States represents an investment of five hundred million dollars.

"COLD IN THE HEAD"

It is acute attack of Rhinal Catarrh. Those subject to frequent "colds in the head" will find that HALL'S CATARRH MEDICINE will build up the system and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature to cure the disease. Sold by all Druggists. Circulars free. E. J. Cheney & Co., Toledo, Ohio.

What this world needs is an additional supply of men and women who talk less and say more.

MINARD'S "KING OF PAIN" LINIMENT

RHEUMATISM

Lumbago, Neuralgia, or any other pain, apply Minard's Liniment to the aching spot and get quick relief. Minard's is the remedy your grandmother used. There is no other like it.

FOR SALE EVERYWHERE

MRS. ANNA E. HUGHES, CHICAGO, ILL.

Mrs. Anna E. Hughes, 22 West Elm St., Chicago, an artist who enjoys a wide and enviable reputation for skill in china painting, in relating the facts of her remarkable experience with Tanlac, says:

"I haven't enjoyed such good health or felt so well in every way in years as I do now." Before I took Tanlac I was so run down that half an hour at my work would tire me completely out and I was actually so nervous and weak that at times the brush would fall from my hands and I would have to quit work for the rest of the day. Every night I would lie awake for hours, miserable and nervous.

"My improvement after the first few doses of Tanlac was rapid and constant. I'm happy to say I'm well and strong now and feel better than in twenty years. Tanlac deserves every word of praise I can give it." Tanlac is sold by all good druggists.

Her Hope

An old negro woman, standing by the grave of her husband, shook her head and said mournfully: "Poor Rastus! I hope he's gone where I 'spec he ain't."

ECZEMA

You are not experiencing it, but you are using it. Eczema is a skin disease. It is a red, itchy, burning, and painful condition of the skin. It is caused by a variety of factors, including poor circulation, poor nutrition, and poor hygiene. It can be cured by using Eczema Cream, which is a powerful skin medicine. It is sold by all good druggists. Write for free pamphlet. Address: THE CURE MEDICINE CO., TORONTO, ONT. (Nearly Daily)

Cook's Cotton Root Compound

A safe, reliable, regulating medicine. Sold in three sizes of strength—No. 1, 41¢; No. 2, 75¢; No. 3, \$1.25. Sold by all druggists, or sent by mail. Write for free pamphlet. Address: THE CURE MEDICINE CO., TORONTO, ONT. (Nearly Daily)

Save the bird in hand—The others may be hard to catch

With enough money, enough time and enough luck, a man may get back the health he has lost—or part of it.

It takes patience, too.

And then there may be no success, or only a little.

It's better to save what you have than hunt for what you've lost—as the most successful health-restorers will tell you.

Much of the loss of health is due to faulty, careless diet. Wrong meals at all times and right meals at wrong times load the long-suffering digestive

organs with elements of destruction, or starve the tissues and glands of needed elements.

Grape-Nuts is a delicious cereal food which has the qualities of scientific nutrition. It supplies the full richness of those splendid food grains, wheat and malted barley, together with the vital mineral elements, so often lacking from foods. Served with cream or good milk, Grape-Nuts gives full nourishment without over-loading the stomach.

A splendid thought for breakfast or lunch, for those who would keep health—

THE development in the last
three years of the use of the
silo and of the advantages of the
sunflower as an ensilage crop has
been tremendous. At the present
time these are being taken up by
the farmers in an amazing way.

Statistics are proving every
day that the farmer who does
not own a silo and sunflower crop
—if he keeps cattle—is losing
money on the present market. The
poor prices on cattle have
necessitated the finding of a
cheaper, and at the same time
a better method of getting cattle
ready for market.

The question arises as to the
suitability of the silo where p.o.
barns are kept. This has been
answered by the fact that in Min-
nesota, out of the 1,900 farmers
in 2,400 who have silos, a large
percentage have practically no
barns.

We believe that it is in the in-
terest of the farmer that we bring
this subject to his attention at
the present time, in the fact that
the Imperial Lumber Co. have
made arrangements to supply ab-

olutely free, enough sunflower
seed to sow a few acres as an ex-
periment, feeling confident that
the farmer will take advantage of
this offer.

In conclusion, we emphasize
the fact that early ordering is
necessary in order to facilitate
matters for the firm.

Railway News in Brief

Moose Jaw, Sask.—
As been made known
month with the work
the interior of the C.
Building is in condition
to receive the cars. The
fact that the building will
be completed by April 1
complete one of the C.
west of Winnipeg.

by the Board members at this
ance.

Kamloops, B.C.—The Royal
College at Kamloops has re-
ceived some interesting gifts
presented by the C. P. R.
The gifts are in the form of a
candle, Mr. E. W. Healey, C.
of the Canadian Pacific Rail-
way has sent two splendid
gifts in the form of a "Princess
Lanthe" and a regimental case
from the company of the late
Mr. Healey, who is a member of
the college governing body, is
interested in its progress and
gifts have been placed in the
museum.

A number of very interesting
pictures of the late Mr. Healey
to the college by Captain P. I.
Healey, of the board of directors
one of which, an illustration
made from a pencil sketch, is
the "Princess Lanthe" in the
hands of Captain Healey, who
from an 18 pound shell, a large
box made from a shell case and
the engraving depicts the
center of Kamloops. The latter
particularly appropriate as
pictures of the late Mr. Healey
who were in the hands of the
C. P. R. and will be
in the hands of the college.
The picture of the late Mr. Healey
has also given
the college a splendid picture
entitled "Riviera," which is con-
sistent photographs taken of
climbing and an express train
the picture hangs in the col-
lege museum.

Mr. A. D. MacTavish, of the C. P. R.
has also presented an engraving
a painting entitled "Princess Lanthe"
the college. This wonderful Scot-
ish picture has been much ad-
mired all who have seen it, and
one of these friends of the
college is appreciated by
connected with the college, as is
evident from the many happy
replies.

Vancouver, B.C.—The "Princess
Lanthe," an all-British Columbia built
newest addition to the coast-
line, first flying the house-
flag of the Canadian Pacific Rail-
way, will be ready for commission-
ing at Victoria on June 10, 1922.
The "Princess Lanthe" is a
Columbia Coast Steamship
Co. "Princess Lanthe" will first
be operated by Captain Healey
the route between Victoria and
Vancouver, which will be in the
of a thorough test of the ship's
hierarchy before she is sent north
Alaska for which service the
"Princess Lanthe" was designed.
The service between Victoria and
Vancouver, Prince Rupert and Ske-
wy will be maintained by the
"Princess Lanthe" from the time
is put into commission for the
summer season of the Alaska
route will go into effect.

The first of the summer under-
water schedule will be taken
by the "Princess Lanthe," leave
Victoria June 9 at 11 p.m.
leaving from Vancouver at 1
June 10. The "Princess Lanthe"
be operated by Captain Healey
in connection with the "Prin-
cess Alian." These two splendid
ships will give the Alaskans the
best of the summer service they
have. It will amount to approx-
imately a weekly schedule. The
summer schedule of the "Prin-
cess Lanthe" to Alaska is fol-
lows: June 9, June 23, July 4,
July 19, July 26, August 4, August
11, August 18, August 25.

The schedule from Victoria of the
"Princess Alian," which will alter-
nate with the "Princess Lanthe," is as fol-
lows: June 16, June 30, July 11,
July 21, August 1, August 11, August
18, August 25, September 1.
From Victoria and Van-
couver the ships will be touched at
Prince Rupert and Ske-
wy during the summer service.
The "Princess Lanthe" and "Prin-
cess Alian" will be in the hands of
the C. P. R. and will be bound

Canadian Apple Exhibition

The speed at which Canadian products can be put on the market in England was strikingly demonstrated recently.

The Department of Colonization and Development of the Canadian Pacific Railway recently shipped by Dominion Express on the "Empress of Britain" a consignment of Canadian apples for exhibition at 62-65, Charing Cross, and the other offices of the company in Europe. The apples came from various Canadian provinces, and it is interesting to note that some of them actually left the producer and were on show in less than eight days. For instance, the Ontario consignment left Trenton, Ontario, at 2 a.m., November 1, by C.P.R., arrived Montreal at 8 a.m., left at 9 a.m., and arrived Quebec at 2 p.m. They were immediately placed on board the Canadian Pacific liner, "Empress of Britain," which arrived Liverpool on Tuesday morning, Nov. 8. Before the last passenger was off the ship the apples were discharged, whisked in Dominion Express motors to the special train to Euston Station, London, which was reached soon after 2 p.m. the same day. Here Dominion Express vans collected them, and at 3 o'clock they were on exhibition in the windows of the Canadian Pacific at Charing Cross, with a card reading, "Canadian apples, from producer to consumer in less than eight days."

Though Canada is three thousand miles from England, our system of quick transportation is bringing us nearer to that country every day. Recently the "Empress of Britain" went to Liverpool and back to Quebec in 15 days, including the time taken in unloading and disembarking passengers.

Winter Recreations in Canadian Pacific Rockies

You cannot play golf at Banff in the winter time. Neither can you explore the Lake Louise region on a saddle pony when the last grey goose has barked good-bye and the marmot and the marmoset are far underground and fast asleep. For six long months these forest filled valleys and star high peaks are mantled in a matchless robe of spotless white. There are many outdoor winter sports and recreations which are only made possible by deep snows and keen frosts. These pastimes are being more people to the Canadian Rockies every winter. At this time of the year tourists are travelling to and from the Orient and the great islands of the southern seas and a large number of them, attracted by the witchery of winter in the Rockies, are enjoying a novel and delightful holiday in this highland country where winter is a sparkling pageant.

There is no snow in the lands from whence these pilgrims come, yet were you to travel there, you would find many a pair of snow shoes which have been carried across the Pacific as souvenirs from Canada's winter wonderland. Banff Winter Carnival allures many visitors to the beautiful mountain resort. In 1922 it will be held from January 28th to February 4th. The carnival will feature—curling, art skating, figure skating, skating races, hockey matches for ladies and men, snowshoe races, toboggan races, dog races, snowshoe transps, bob-sledging, trap shooting, swimming in the hot sulphur springs, ski jumping, sleighing, dancing. There will be an illuminated ice palace and fireworks. On the opening day there will be ski jumping by professionals and a ladies' hockey match.

Snow shoe "bush" midnight nights are gladome events. To take part in a picnic in the pine woods at such a time is a never to be forgotten experience. There is a primitive urge which compels you to build a roaring firewood fire. Hot coffee and toasted bacon turn your picnic into a paradise.

Of the many thousands of tourists who visit lovely Lake Louise in summer, few there be who do not ask about this district in winter time. Is it very cold here? And is the snow very deep? It is not excessively cold in winter. There are no high winds and no blizzards. The snow is so thick to spoil your fun and your sports. The average depth of snow is about five feet. It is very beautiful here after a fresh fall of snow. Trees are loaded down with it. Huge mushrooms of snow grow on every stump. Telegraph poles carry a tremendous "overhead" on their cross arms. Jack Frost has laid his icy

- (1) Chateau Lake Louise in winter.
- (2) A snowshoe party at Banff.
- (3) These two girls are experts in winter sports.

You will have ample opportunity to make outings in your nature boots and to picture not only the scenic beauties of this winter wonderland but also the wild life which is so plentiful here in spring will ever come again. Do not forget to bring your camera because there is no close season for the person who hunts with a kodak.

—Dan McCowan
